SUMMARY

Full-stack developer who builds responsive React and Node.js web applications, including e-commerce marketplaces, a blog platform, and business websites, backed by REST APIs, MySQL databases, and user authentication. Focused on clean, maintainable code and polished user experience.

TECHNICAL SKILLS

Frontend: React, Vite, React Router, React Query, Tailwind CSS, JavaScript (ES6+), HTML5, CSS3, responsive design

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MySQL, MongoDB, Mongoose

Tools & Deployment: Git, GitHub, VS Code, Vercel

PROJECTS

Aemad Architecture & Interior Website | *React, Vite, Node.js, Express.js, MySQL*

- Built a bilingual (English/Amharic) portfolio website for an architecture and interior/exterior design business, showcasing completed projects in a filterable gallery.
- Designed the site so all content is managed through an admin panel backed by a MySQL database.

No-delela | *Full-stack e-commerce marketplace*

- Built a full-stack e-commerce marketplace that connects buyers and sellers directly.

Lexury | *Full-stack e-commerce marketplace*

- Built a full-stack luxury e-commerce marketplace that connects buyers and sellers directly.

Blog Website | *React, Vite, Node.js, Express.js, MongoDB, MySQL, JWT, Tailwind CSS, React Query, React Router*

- Built a full-stack blog platform where authors publish articles and readers browse, search, and read posts by category, with JWT-based authentication.

Amazon-clone | *React, Vite, Node.js, Express.js, MySQL*

- Built a full-stack Amazon-inspired e-commerce platform with product browsing, cart functionality, and order management.

Netflix-clone | *React, Vite, Node.js, Express.js, MySQL*

- Built a Netflix-inspired streaming platform with browsable movie and show rows, a hero banner, and user authentication.

LANGUAGES

Amharic, English
